FOR IMMEDIATE RELEASE

Granite look becomes attainable
as part of the Wilsonart[®] Laminate lineup
- Upscale stone look now available in every price range -

TEMPLE, Texas (June 1, 2009) - The large-scale granite look remains in high demand among budget-conscious homeowners remodeling their kitchens and baths, and new designs from Wilsonart Laminate fill that need in spades.

The Springs series includes four bold designs that evoke the feeling of clean cool water streaming through a stony mountain brook. Four flavors coordinate beautifully with the most popular cabinet finishes in vogue today:

- **Desert Springs:** Features large aggregates in dark taupe, white quartz and golden amber.
- **Spicewood Springs:** A kaleidoscopic mix of smoky blue-grey, black, jade green brown garnet, amber and white quartz.
- **Willow Springs:** Prominent aggregates in smoky grey and black, white quartz and golden amber. A novel green effect occurs when the amber overlaps the black.
- **Deep Springs:** A sensual mix of deep black, smoky blue, brown and white quartz aggregates.

The Springs series joins the Wilsonart Home Collection at the standard price point, alongside Premium series Milano and Mesa, and the Wilsonart[®] HD[®] Bella series.
